2024-2025

19th August, 2024

Topic:- How media effects on Younger Minds.

Group:- All the final year students & Second Year students.

Media exposure can significantly impact young minds, often leading to negative effects like decreased attention span, disrupted sleep patterns, lowered self-esteem, increased anxiety, potential for cyber-bullying, and distorted perceptions of reality. Particularly regarding body image and social norms, mental health concerns, body image issues, sleep disturbances, attention span issues, social isolation, educational opportunities, creative expression. Some of the important considerations are parental supervision and guidance, media literacy education, balanced media use.

2024 - 2025

01/10/2024

Topic :- Impact of Covid on Global Economy

Group :- All the first year students and third year students.

Covid-19 is a coronavirus, a virus that normally affects the whole world. The crisis had a dramatic impact on global poverty and inequality. Global poverty increased for the first time in a generation, and disproportionate income improvements came within countries and agreements between countries. Globalization. Globalization gives large companies an advantage. Companies can get developing countries and get raw materials, like oil, for less money.
